50 lb (23 kg)

ST055
55 lb (25 kg)

ST075
75 lb (34 kg)

Quantum® Gold Control

Offers five basic cycles and benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing. As gas prices continue to rise, Quantum Gold enables owners to set dry cycle times right down to the second for maximum profitability.

- 5 basic cycles (high, medium, low, delicate, no heat)
- Flexible pricing opportunities with customizable cycle times and time-of-day pricing
- On screen timer so your customers know exactly how much time their cycle will take
- Flexible Payment Options

Micro Display II Control (MDC II)

The Micro Display Control II (MDC II) clearly displays the vend price and keeps customers informed throughout the drying process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC II offers four cycle selections and basic audit features.

Tumble Dryers

Our tumble dryers are built with a single purpose: performance. They are specifically designed with fewer moving parts, so you'll face fewer maintenance issues over their lifespan.

- Axial Airflow provides the most concentrated and efficient drying possible to make dry times even faster, while saving you money
- Patented oval cylinder perforations allow for small metal objects to pass through into the lint compartment preventing any internal damage to the dryer
- Reversing cylinder now comes standard
- Extra-large doors and heavy-duty hinges stand up to the repeated use of high-traffic vended laundries
- The fine mesh lint screen is self-cleaning, depositing lint into a large storage area for easy, once-per-day removal
- Inverter-driven motors

3 Year Warranty See Speed Queen Warranty Bond for specifics.
